

Ghost Woman (California Fiction)

Based on a chilling historical event, *Ghost Woman* is a tale of the arrogance of colonizers, rape, guilt, punishment and retribution. It is set on the Southern California coast during the early nineteenth century, when Catholic missionaries rounded up all the local Indians except those still living on San Nicolas Island. When this group is finally captured, one woman jumps from the boat and returns to the island for her missing child. The novel is that woman's story, and the story of the white family with whom her life becomes entangled after she too is taken from her island home.
